SUPPORTING DOCUMENT

7.1.7 Details of Software Procured

The enabling unit of the Library is a separate facility designed for the visually challenged and differently abled students. It is equipped with Desktop computers with multimedia speakers, Headphones, LEX scanner and JAWS screen reading software, besides which various other scanners like Horizon, Sara CE, HP Scanner, Zoom Ex Scanner etc. are available in this section. The Library staff helps the students by scanning and providing the soft copies of the reading material to the students. The VH students are issued Angel e-book readers and MP3 recorders by the Library. The Library also contains laptops with Jaws software. The Saksham E-10 recorder and the KIBO XS scanner are the latest additions to this section.
