

Evolution of Scientific Temper among Indian Citizens - The Physics Society

Azadi ka Amrit Mahotsav

As part of 'Azadi ka Amrit Mahotsav', The Physics Society hosted Prof. Narendra Nayak, the current president of the Federation of Indian Rationalist Associations (FIRA). Dr. Nayak is known for being an energetic rationalist and social activist. He has made his mark as one of the most celebrated spokespersons who aims to spread scientific temper in India. Although India has been an independent country for 75 years, we are still a long way from being free of pseudoscientific beliefs and harmful superstitious practices. It is imperative that everyone in a community learns of these dangers and how to combat them. He spoke about "Evolution of Scientific Temper among Indian Citizens" and this was followed by a question and answer session with the participants. The talk was held on 14th November 2021 and witnessed a huge turnout with more than 100 participants joining in to learn from the illustrious speaker.

The Physics Society
St. Stephen's College
presents
