

SOCIETY ACTIVITY REPORT 2019-20

THE CHEMISTRY SOCIETY

1. Career Talk on "**How to Get a Funded Masters Programme Abroad**" by **Mr. Srijit Seal** (An alumnus of 2019 batch) on August 18, 2019. The talk was extremely helpful in guiding young scholars through the process of CV building, research projects, internships abroad, and finally, ways to get a fully funded master's program abroad.

2. **'Borosil Workshop'** by the senior sales executive at Borosil Ltd, **Mr. Himanshu Sharma** on September 5, 2019.

3. The Inaugural lecture on **'Nanotechnology for societal benefit'** was delivered by **Prof. Neeraj Khare**, Nano Research Faculty at IITD on September 13, 2019.

4. **Online Photography competition** on the theme "RESONANCE" was held from October 12 to November 15, 2019. Students from different colleges across Delhi participated in this event by sending in their entries.
5. The Society commemorated the **International Year of Periodic Table** to acknowledge the efforts and the never stopping spirit of our revered scientists.

THE CHEMISTRY SOCIETY
ST. STEPHEN'S COLLEGE

CELEBRATES

*International Year of
Periodic Table*

TUESDAY, OCTOBER 22

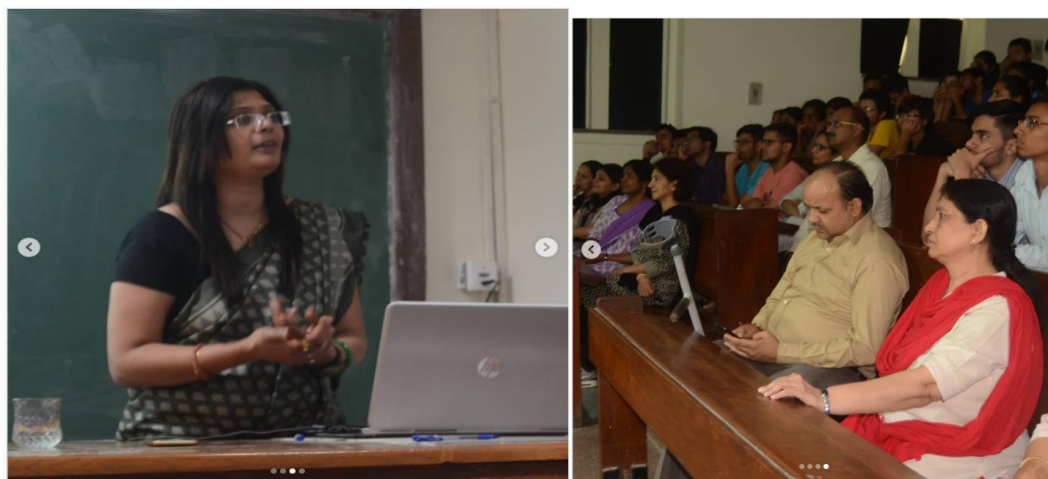

Inaugural talk
on
Role of Chemical Elements
in Disease Management
by
Dr. Anupama Dutta, DRDO
2pm | OCLT

Chem-a-thon
The Science Quiz
3:30pm | NCLT

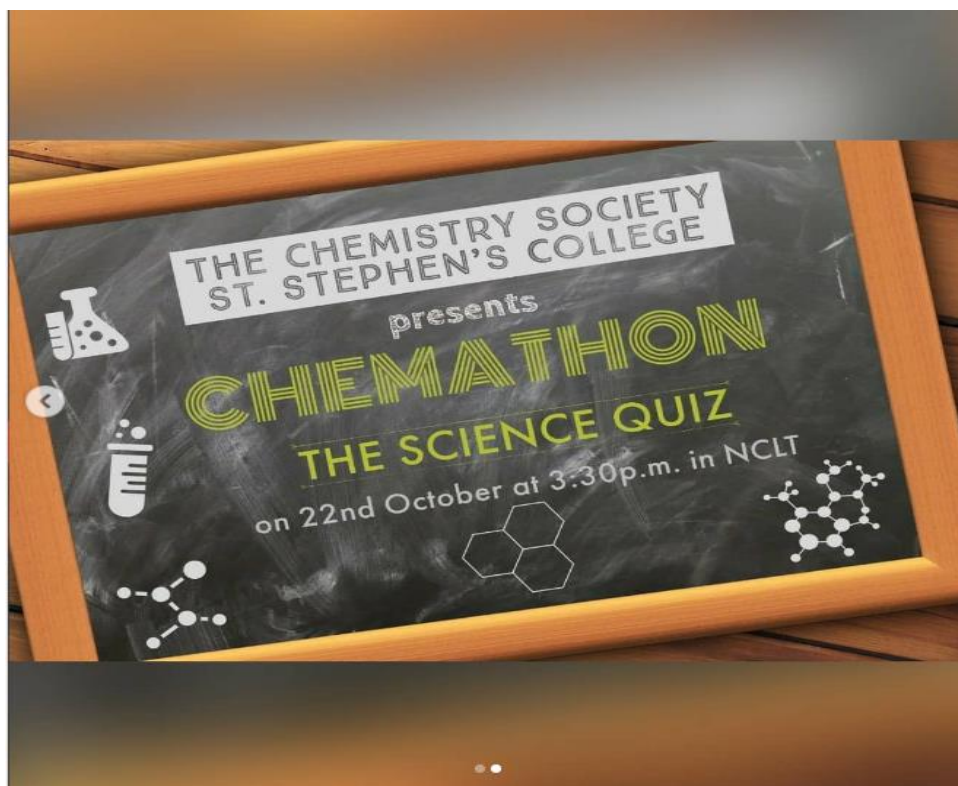

Rijul : 9990102111 Siddhant : 9829111855

- A. Lecture on '**Role of Chemical Elements in Disease Management**' delivered by **Dr. Anupama Dutta**, a scientist at the Institute of Nuclear Medicines and Allied Sciences, DRDO on October 22, 2019. Dr. Dutta is a well-respected scientist at the Institute of Nuclear Medicines and Allied Sciences, DRDO. Her research area involves Design and Development of Novel Probes for Targeted Imaging and Therapy. Not only this, she has been a post-doctoral researcher at the Technical University Darmstadt, Germany as well. The talk was indeed very imperative as it shed light on the importance of the periodic table in our daily lives specifically with respect to nuclear medicine, with a special mention of its future aspects.

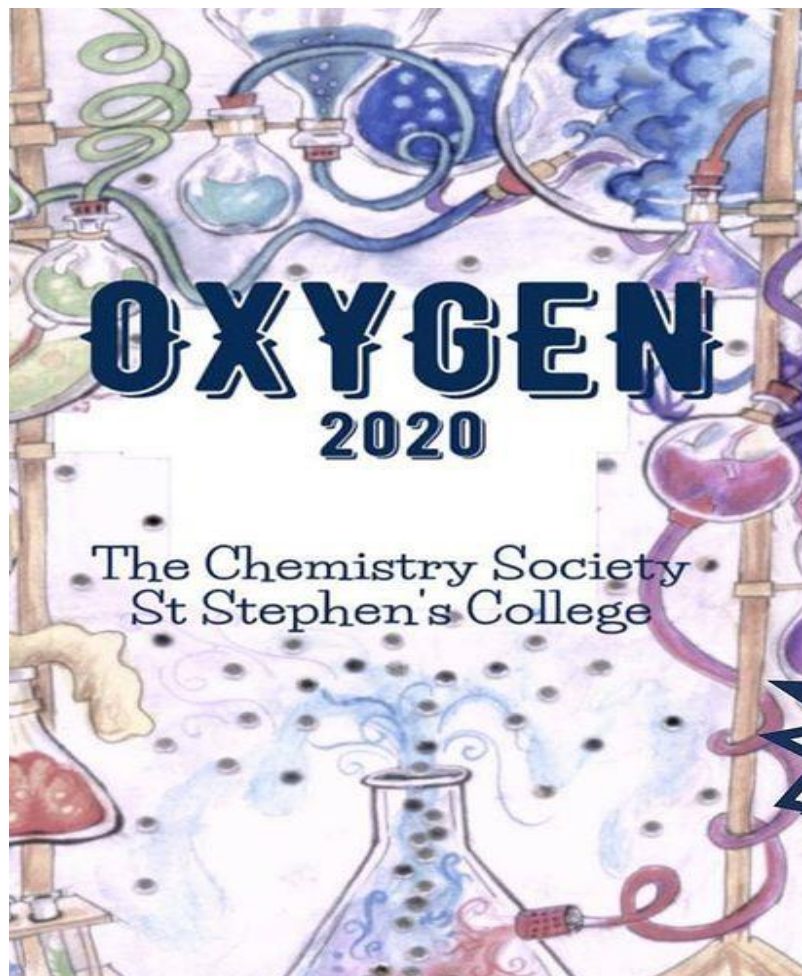

- B. Science quiz- **The Chem-a-thon**. The mind-boggling audio and visual questions appraised the knowledge of participants across several disciplines in science. The quiz was conducted on 22 October 2019 at 3:30 PM in NCLT.

6. The **2020 edition** of the Society's annual journal '**Oxygen**' was released in latter part of the academic year 2019-2020. The editorial team invited entries from students on various topics ranging from scientific articles and poems to comic strips.
