Professional Summary

Dedicated educator and researcher committed to fostering intellectual curiosity, clarity of thought, and independent inquiry in students. I design thoughtful learning aids—handouts, glossaries, conceptual maps—that enable diverse learners to engage meaningfully with complex texts. My pedagogical approach balances rigorous content delivery with an emphasis on student-led investigation and reflective dialogue. As a scholar, I am steadily expanding the work initiated during my MPhil and PhD into independent publications, aligning research depth with evolving curricular demands. Over the next five years, I aim to contribute to an interdisciplinary, student-centered academic culture marked by mentorship, collaborative teaching, and a shared pursuit of academic excellence.
