COURSE ON PUBLIC POLICY AND INTERNATIONAL RELATIONS

ST. STEPHEN’S
CENTRE FOR ADVANCED LEARNING

St. Stephen's College, Delhi
University of Delhi- 110007
scal@ststephens.edu
PROGRAMME STRUCTURE

• 6-week executive level programme with 4-hour weekend classes and coursework beginning from January 11th, 2020.
• Each week would comprise of at least 2 to 3 lectures depending upon mandatory coursework and workshops.
• Evaluation would include coursework gradation, peer-reviews, and seminar participation.

OVERVIEW

This one of a kind executive level programme in Public Policy and International Relations is an independent undertaking by St. Stephen’s College, Delhi to complement one of its newly incorporated centres - St. Stephen’s Centre for Advanced Learning (SCAL). This programme will essentially focus on imparting knowledge, skills, and abilities to excel in the field of Policy Implementation, Foreign Relations and Diplomacy.

The uniqueness of this programme stems from its faculty and facilitators. Through a variety of mediums including personal/physical as well as virtual sessions, it will essentially be the industry-expert and stalwart Stephanians conducting this executive course.

Recent graduates, and professionals from all disciplines and backgrounds are welcome to apply.

PROGRAMME COMPONENTS

PUBLIC POLICY

• The Policy Process- Need and Relevance of public policy
• Public Policy Development, Management, and Leadership
• Public Financing and Budgeting
• Administration and e-Governance
• Law and Public Policy

The Public Policy element will introduce the theory and relevance of Policy making, implementation, and management. The development of public administration reforms, leadership & management, leadership in government, performance management and related topics will be taken up. We will understand the politics behind policy vis-à-vis e-governance by focusing on the Information and Communication Technology (ICT) used by Governments to provide information and support to citizens, industries, NGOs and Civil Society. Taxation, Government Spending, Market Economy, and the implications of the changes in the market economies will form the core of the sessions pertaining to Public Financing and Budgeting. Analysing big data, finding relevance of the data, and successfully organising it towards appropriate usage and policy implementation will be the key takeaways, along with ascertaining the protocols pertaining to Policy designing, how far does the law promote as well as affect the policies in question, and the factors essential to the smooth functioning and monitoring of the policies.

INTERNATIONAL RELATIONS

• International Relations: A South Asian Perspective
• Foreign Policy
• International Security
• Diplomacy
• Conflicts Negotiation Exercise

The International Relations modules will cover key concepts and theories with focus on current affairs and debates with effective practical skill training. The course would revel into the present scenario of International Relations especially in South Asia and understand the importance of Diplomacy in bridging the yawning gulls between nations. The course will also focus on issues pertaining to International Security, need for arms race and the importance of conflict negotiation exercise which would give the participants a clear understanding of the process and would give them a real understanding.
